

ALEXANDRIA, VA.
SATURDAY, MAY 21, 1870

NEWS OF THE DAY.

"To show the very age and body of the Times."

The Mayor and City Council of St. Louis have instructed the City Council to bring suit against the Gas Works to compel them to sell the Gas Works to the city, as provided by contract. And the Gas Company has brought suit against the city for various sums alleged to be due for gas furnished the city during the past three years, aggregating over \$300,000. This is regarded as an offset to the suit which the City Council has brought against the Gas Company.

An unknown man and woman, for some time tenants of a room on the second floor of No. 5, Delancy street, New York, disappeared last night. This morning detectives found extensive excavations in the brick wall which, with an hour's work, would have admitted the operators to vaults containing over a million dollars' worth of diamonds, jewelry and watches.

At yesterday's session of the General Conference of the Methodist Episcopal Church South at Memphis, a report was made in favor of the continuance of the Book Concern at Nashville. An amendment was offered to remove the establishment to Baltimore, which gave rise to considerable debate, and was rejected.

The Atlantic National Bank of New York has discovered it had cashed a forged check to the amount of \$810, drawn in the name of Mr. Tilden, proprietor of Columbia Hall, New Lebanon (New York) Springs, by a man named Fasson. The bank will lose less than \$500. The police are on the track of the forger.

Slavery will soon be abolished in Cuba. Captain General de Rodas has issued an order that all slaves belonging to insurgents in the field or absent from Cuba, or who have taken up arms, or served as guides to Spanish troops, or performed any other service for the Spanish cause, are henceforth free.

Rev. John L. Nathan, it is rumored, is about to be removed from his position as Junior Agent of the Methodist Book Concern. The New York Tribune says that it has been resolved secretly to convoke the Book committee and suspend him.

The New York Methodist of this week states that after eight years of unceasing effort it has "the satisfaction of announcing the triumph of lay delegation," the necessary three-fourths of vote having been secured.

In Boston permits are now given to grind a hand organ or peddle fruit, only to persons who can show that they are in really needy circumstances, and have no other means of obtaining a livelihood.

The annual examination of mid-shipsmen at the Annapolis Naval Academy commenced yesterday. Secretary Robinson was present at the opening exercises.

M. E. Sussick, the late defaulting City Treasurer, in St. Louis, failing to give \$20,000 bonds, was sent to jail on an indictment against him for embezzling \$140,000.

VIRGINIA NEWS.

The Richmond State Journal says:—"It has been quite generally believed that the accident at the Capitol was caused by the giving way of the gallery. This is a mistake, for when the main girder under the floor broke, the floor sank, and as the gallery rested on the floor it followed. The gallery was connected with the ceiling—which seemed to have been suspended four or five feet below the roof by a stairway and some lesser timbers—these drew down the ceiling. So that the fall of the floor caused the fall of the gallery, and the gallery that of the ceiling."

The U. S. Marshal of this district yesterday morning received from Washington city, the pardon of Frederick Banasche, who was sometime ago convicted of uttering counterfeit U. S. tobacco stamps, and sentenced to a term of years in the Albany penitentiary. The pardon was granted on the recommendation of Carl Shurz and three hundred citizens of Richmond.

The Native Virginian, at Gordonsville, will hereafter be published at Orange Court-House, by Mr. A. F. Stuber, under the name of the Piedmont Virginian. Mr. Bagby's duties in Richmond require his attention there, and he has retired. Both the gentlemen named have our best wishes for their future success and welfare.

Dr. George A. Rose, U. S. A., who has for some time been on duty in Richmond, and whose generous sympathy and ready professional aid, in the hour of the Capital horror, will long be remembered by a grateful community, has received orders, and will within a few days proceed to report for duty in San Francisco.

Mrs. Emily Haley, wife of John Haley, of Loudoun County, Va., while riding along the road near Hughesville, on Wednesday of last week, died suddenly of heart disease. She was taken sick and dismounted, and in a few minutes was dead.

Wood from the Dismal Swamp is being extensively used in the North Carolina and Virginia paper mills for the manufacture of newspaper.

Foreign News.

The troops of Portugal on Wednesday effected a sudden change in the Ministry. They took possession of the palace in Lisbon, compelled the Cabinet to resign, and then turned over their power to the King. The following is a dispatch from Lisbon:—"Gen. Saldaña has taken the castle of St. George, after a sharp fight, in which seven were killed and thirty wounded, entered the palace and immediately resigned his command into the King's hands, who immediately authorized him to form a new Ministry. This coup d'etat is participated in or sympathized with by the people of Lisbon, Oporto and other cities."

Garibaldi's movements are closely watched by the Italian Government, and three naval vessels are cruising off Capri to prevent his leaving there for Naples.

The Marquis de Talhouart, ex-Minister of Public Works, has been elected Vice President of the French Corps Legislatif.

Prosecutions against the Paris newspapers which have inserted what are called "incendiary articles" are still carried on.

It is reported from Rome that the dogma of infallibility will certainly be affirmed in the Ecumenical Council.

"A Union Max."—In the U. S. Senate, on Monday, Mr. Johnston said: "I present the memorial of David Faltz of the town of Staunton, Virginia, who represents that he was the owner of a large farm near that town, and that Federal soldiers under the command of generals Hunter and Sheridan, took from him and carried through the Valley, took from him and carried away nine valuable horses, all of his grain and provisions, and entered his dwelling and broke and destroyed and carried away many articles of property and some family relics of great value, leaving him without the necessities of life. He also sets forth that however, by word, act or deed aided or abetted the rebellion, but on the other hand, he had uniformly denounced secession as an abominable political heresy, and rebellion as the madness of folly and wickedness. He therefore prays that, being a loyal man and a friend to the Union, he may be speedily compensated for the actual losses sustained by him." (U)

The salt and plaster is confined principally to Washington and Smythe counties, and although large quantities of each of these indispensable articles are gotten out, the business might be materially increased without at all affecting the supply which nature has so bountifully provided.—*Wygheville Enterprise.*

Too Much Wine.—One of the most fertile portions of Southern California was taken possession of by the Germans, and especially for the purpose of making wine. The wine became such a drug that it did not pay to make it. Heavy mortgages on the wine growing farms followed the dull sale. And the German population, in large numbers, are cutting up their vineyards into homestead lots and turning their attention to more profitable agricultural labors.

LETTER FROM RICHMOND.

[Correspondence of the Alexandria Gazette.]

RICHMOND, May 20.—The Senate, to-day, by a vote of 23 to 4 passed the House bill appropriating \$15,000 for the purchase of Sycamore Church; and ordered its engrossment a bill fixing the salary of the Attorney General at \$2,000. The bill before the House fixes the salary at \$1,500.

A bill was introduced amending the charter of the Alexandria and Fredericksburg railroad, for non-compliance on the part of the State for the forfeiture with the original act, and extending the time for the commencement of the work to one year, and its completion to three, from the passage of the present bill. The company is also authorized to extend its road to some point on the Potomac opposite the cities of Alexandria and Washington or opposite the latter city, a bridge to connect the bridge at Aqueduct Company that has had or may have granted the privilege, by Congress, of bridging the river.

A bill for the relief of the sureties of the Sheriff of Richmond county, was passed. The bill incorporating the James River Bridge Company, was passed. This is to be a free bridge to connect Richmond and Manchester.

The bill to incorporate the Piedmont and Potomac Railroad Company—from Aldie to Georgetown—was discussed and laid over, pending the consideration of an amendment compelling the proposed road to cross the A., L. & H. at a point equidistant between Alexandria and Georgetown.

The bill for the relief of the Bank of Commerce at Fredericksburg; the bill to incorporate the Hanover Junction and West Point Railroad Company, the bill conferring judicial powers on Mayors of cities, the population of which are less than 5,000, and investing the Sheriffs of said towns with the powers and duties of constables, and a bill to incorporate the town of Goodsen, in Washington county, were passed.

The bill to authorize the appointment of trustees for the town of Occoquan, was ordered to be engrossed.

A bill was introduced to authorize the election of certain officers in the town of Leesburg on the 26th, and to confirm the powers and rights granted by the charter of said town, passed Feb. 27, 1858.

The Senate rejected the bill making distinction in civil rights between citizens of this Commonwealth, the same being regulated by act of Congress.

The bill to incorporate the Norfolk and European Steamship Company, was ordered to be engrossed.

A bill was introduced to amend the 10th section of the 42nd chapter of the code in regard to leaving execution for recovery of debts due the State.

The bill to incorporate the Allegany and Atlantic Railroad Company was taken up and discussed to adjournment.

In the House of Delegates bills were reported for the relief of the sureties of Washington Dismal, for Sheriff of Clarke county; amending the code in relation to warrants for small claims; and amending the code in regard to remedy by motion on contracts not exceeding fifty dollars, and on contracts generally.

The House agreed that on and after Monday next there shall be two sessions, the morning session to be devoted to special orders and the evening to bills on the calendar. In this way if a quorum can be kept together a great deal of business can be attended to, and the House catch up with the Senate, which is very far ahead.

The Judiciary Committee reported adversely to a bill to amend the Code in relation to marriage fees, to authorize the Circuit Court of the Commonwealth to grant new trials and to hear causes in such courts in certain cases; to amend the Code in relation to official bonds of Sheriffs and other officers; to amend the Code in relation to paying the debts of a decedent's estate; to amend and reenact section 1, chapter 134, and section 10, chapter 184, of the Code.

The Committee also reported that they deem it inexpedient to amend the law so as to allow persons accused of certain grades of crime to give evidence in their own behalf.

The House passed by the consideration of the tax bill and the bill preventing the sale of property till the Homestead is defined, and took up the House engrossed bill entitled "an act to prescribe in what manner and on what conditions a household or head of family shall set apart and hold a homestead and personal property for the benefit of himself and family exempt from sale or debt."

The bill was returned from the Senate with amendments. The discussion was continued until time of adjournment.

Mayor Ellyson has received the nomination of the Conservatives of the city, by about 300 majority over his competitor, Mr. Kelley. Mr. Ellyson had a majority in every ward in the city save one, in which Mr. Kelley received one.

Messrs. Geo. D. Wise and B. H. Berry were also nominated for the offices for which they are candidates.

THE MINERAL RESOURCES OF S. W. VIRGINIA.—It has gone abroad that lead is abundant in Southwest Virginia, but it is not generally known that the mines in Wythe county are the only ones in operation, and in fact, the only ones having an existence at all in the State, so far as we are informed. It is known to but few that the old mines of this county raised about 8 tons of zinc ore per day last year, besides what was done in lead. In fact very little concerning its operations is known even by our own people. In addition to the old mines, how many persons abroad know anything of the existence of the new lead and zinc mine on Judge Fulton's place, now being successfully operated by Mr. Noble?

The iron ore of Wythe county is, we believe, also more abundant than in any other county to this section. We learn from a friend who is somewhat familiar with this important branch of business, that there will be about 100 tons of pig iron as much, or perhaps more, hammered iron, made this year at the different furnaces and forges now in operation in this county, and that then they will not be worked to more than half their capacity; and that besides those in operation there are several forges and furnaces not in operation.

Carroll county is the most favored copper region. Smythe perhaps has the most barytes, having several mills in operation and large quantities (but this is very indefinite) shipped last year, and perhaps a larger quantity to ship this year. Montgomery, Wythe, Smythe and Lee we know have each abundance of coal. Besides the iron mentioned on Cripple creek in this county, the quality of which may be judged by the fact that the ore yields 50 per cent. of pure iron, there are inexhaustible beds of this ore in Grayson, Lee, Pulaski and we believe several other counties.

The salt and plaster is confined principally to Washington and Smythe counties, and although large quantities of each of these indispensable articles are gotten out, the business might be materially increased without at all affecting the supply which nature has so bountifully provided.—*Wygheville Enterprise.*

Too Much Wine.—One of the most fertile portions of Southern California was taken possession of by the Germans, and especially for the purpose of making wine. The wine became such a drug that it did not pay to make it. Heavy mortgages on the wine growing farms followed the dull sale. And the German population, in large numbers, are cutting up their vineyards into homestead lots and turning their attention to more profitable agricultural labors.

WASHINGTON ITEMS.—Yesterday Judge

Sharp, under the instructions of Marshal Humphreys, holding the Criminal Court of the District of Columbia, made a report as to the Bradley Fisher difficulty in front of the City Hall Wednesday afternoon last, briefly stating the facts. It is understood that Judge Humphreys will hold the case under advisement until Wednesday next.

The new Masonic Temple was dedicated last night with imposing Masonic honors. Ben. Perley Poore, of Massachusetts, delivered the inaugural address.

Between 1 and 5 o'clock yesterday morning a daring burglary and safe robbery was perpetrated at the pawnbroker's establishment of S. Goldstein & Co., in Four and a half st., near Pennsylvania avenue. The burglars penetrated the building by cutting through the back brick wall, fourteen inches thick, making a hole about sixteen by twenty inches in size, and then commenced to operate on the safe, which was contained a large number of valuable articles.

The safe is a Wilder's patent, and in the lower left corner of the upper panel, the door they drilled a hole and broke the bolt, after which the door was prised open with a jimmy. They took a large number of valuable watches, diamonds and costly jewelry from the safe. They left a great quantity of valuable silver and gold plate, which was probably abandoned on account of the noise of the safe, identification. The reverse side of the safe, not containing a large amount of money was not disturbed. The loss is estimated at \$10,000.

The detectives arrested "a man [last night, he resisted at first, but was with a valise being opened in the presence of witnesses, an inventory was taken of its contents by Mr. Goldstein, and every missing article found to be safe. The man was committed to jail. He will not tell his accomplices. This was a robbery soon ended.

A HEAVY VERDICT.—Cumberland, May 20. A jury of inquisition yesterday rendered a verdict of \$800 against the C. and O. Canal Company. The circumstances are these: The Canal Company excavated an inner basin, costing \$15,000, to enable Messrs. Walsh and McKnight to build their coal wharf. After the wharf was completed the only access to it was under the coal wharf of the Cumberland Coal and Iron Company. This company refused to allow boats to pass a compromise was then made, by which the Cumberland Company agreed that boats might pass under its wharf until the Canal Company could make a new inlet, which had to be made through the Shriver Island. The Canal Company yesterday condemned the right of way, and the jury rendered the above verdict. *Baltimore American.*

WARD MEETINGS.—I would, again, earnestly advise the property holders and owners generally to attend the meetings for the ward election of a ticket. In the 1st Ward, especially, unless great care is taken in the formation of a ticket, it may probably be defeated, and Radical Abandon and Councilmen, (probably men having no stake in the community) be chosen. Let the tax payers then look to their interests.

A TAX PAYER.

By Beck, Knox & Kerby, Auctioneers, SAREPTA HALL, LOT FOR SALE.

On the 25th DAY OF MAY, 1870, at twelve o'clock, in front of the Mayor's office, in the city of Alexandria, Va., the Circuit Court of Alexandria County, Virginia, in the suit of J. J. Wheat, plaintiff vs. Sarepta Lodge No. 1, defendants, will sell at public auction, the LOT on the north side of King street, between Royal and Pitt streets, city of Alexandria, Va., bounded as follows: A part of it beginning on King street at a point distant 24 feet eastwardly of a line of lot, running northwardly parallel to Pitt street to the line of the ground, and then northwardly parallel to Pitt street 10 feet; then northwardly parallel to Pitt street 10 feet; then westwardly parallel to King street 10 feet; then westwardly parallel to King street 10 feet; then a straight line to the line of the ground, and the residue of the piece of ground before described, and running thence eastwardly with King street 36 feet 9 inches, more or less, to the line of the ground, and then northwardly parallel to King street 10 feet; then northwardly parallel to King street 10 feet; then westwardly parallel to King street 10 feet; then westwardly parallel to King street 10 feet; then a straight line to the line of the ground, and the residue of the piece of ground before described, and running thence eastwardly with King street 36 feet 9 inches, more or less, to the line of the ground, and then northwardly parallel to King street 10 feet; then northwardly parallel to King street 10 feet; then westwardly parallel to King street 10 feet; then westwardly parallel to King street 10 feet; then a straight line to the line of the ground, and the residue of the piece of ground before described, and running thence eastwardly with King street 36 feet 9 inches, more or less, to the line of the ground, and then northwardly parallel to King street 10 feet; then northwardly parallel to King street 10 feet; then westwardly parallel to King street 10 feet; then westwardly parallel to King street 10 feet; then a straight line to the line of the ground, and the residue of the piece of ground before described, and running thence eastwardly with King street 36 feet 9 inches, more or less, to the line of the ground, and then northwardly parallel to King street 10 feet; then northwardly parallel to King street 10 feet; then westwardly parallel to King street 10 feet; then westwardly parallel to King street 10 feet; then a straight line to the line of the ground, and the residue of the piece of ground before described, and running thence eastwardly with King street 36 feet 9 inches, more or less, to the line of the ground, and then northwardly parallel to King street 10 feet; then northwardly parallel to King street 10 feet; then westwardly parallel to King street 10 feet; then westwardly parallel to King street 10 feet; then a straight line to the line of the ground, and the residue of the piece of ground before described, and running thence eastwardly with King street 36 feet 9 inches, more or less, to the line of the ground, and then northwardly parallel to King street 10 feet; then northwardly parallel to King street 10 feet; then westwardly parallel to King street 10 feet; then westwardly parallel to King street 10 feet; then a straight line to the line of the ground, and the residue of the piece of ground before described, and running thence eastwardly with King street 36 feet 9 inches, more or less, to the line of the ground, and then northwardly parallel to King street 10 feet; then northwardly parallel to King street 10 feet; then westwardly parallel to King street 10 feet; then westwardly parallel to King street 10 feet; then a straight line to the line of the ground, and the residue of the piece of ground before described, and running thence eastwardly with King street 36 feet 9 inches, more or less, to the line of the ground, and then northwardly parallel to King street 10 feet; then northwardly parallel to King street 10 feet; then westwardly parallel to King street 10 feet; then westwardly parallel to King street 10 feet; then a straight line to the line of the ground, and the residue of the piece of ground before described, and running thence eastwardly with King street 36 feet 9 inches, more or less, to the line of the ground, and then northwardly parallel to King street 10 feet; then northwardly parallel to King street 10 feet; then westwardly parallel to King street 10 feet; then westwardly parallel to King street 10 feet; then a straight line to the line of the ground, and the residue of the piece of ground before described, and running thence eastwardly with King street 36 feet 9 inches, more or less, to the line of the ground, and then northwardly parallel to King street 10 feet; then northwardly parallel to King street 10 feet; then westwardly parallel to King street 10 feet; then westwardly parallel to King street 10 feet; then a straight line to the line of the ground, and the residue of the piece of ground before described, and running thence eastwardly with King street 36 feet 9 inches, more or less, to the line of the ground, and then northwardly parallel to King street 10 feet; then northwardly parallel to King street 10 feet; then westwardly parallel to King street 10 feet; then westwardly parallel to King street 10 feet; then a straight line to the line of the ground, and the residue of the piece of ground before described, and running thence eastwardly with King street 36 feet 9 inches, more or less, to the line of the ground, and then northwardly parallel to King street 10 feet; then northwardly parallel to King street 10 feet; then westwardly parallel to King street 10 feet; then westwardly parallel to King street 10 feet; then a straight line to the line of the ground, and the residue of the piece of ground before described, and running thence eastwardly with King street 36 feet 9 inches, more or less, to the line of the ground, and then northwardly parallel to King street 10 feet; then northwardly parallel to King street 10 feet; then westwardly parallel to King street 10 feet; then westwardly parallel to King street 10 feet; then a straight line to the line of the ground, and the residue of the piece of ground before described, and running thence eastwardly with King street 36 feet 9 inches, more or less, to the line of the ground, and then northwardly parallel to King street 10 feet; then northwardly parallel to King street 10 feet; then westwardly parallel to King street 10 feet; then westwardly parallel to King street 10 feet; then a straight line to the line of the ground, and the residue of the piece of ground before described, and running thence eastwardly with King street 36 feet 9 inches, more or less, to the line of the ground, and then northwardly parallel to King street 10 feet; then northwardly parallel to King street 10 feet; then westwardly parallel to King street 10 feet; then westwardly parallel to King street 10 feet; then a straight line to the line of the ground, and the residue of the piece of ground before described, and running thence eastwardly with King street 36 feet 9 inches, more or less, to the line of the ground, and then northwardly parallel to King street 10 feet; then northwardly parallel to King street 10 feet; then westwardly parallel to King street 10 feet; then westwardly parallel to King street 10 feet; then a straight line to the line of the ground, and the residue of the piece of ground before described, and running thence eastwardly with King street 36 feet 9 inches, more or less, to the line of the ground, and then northwardly parallel to King street 10 feet; then northwardly parallel to King street 10 feet; then westwardly parallel to King street 10 feet; then westwardly parallel to King street 10 feet; then a straight line to the line of the ground, and the residue of the piece of ground before described, and running thence eastwardly with King street 36 feet 9 inches, more or less, to the line of the ground, and then northwardly parallel to King street 10 feet; then northwardly parallel to King street 10 feet; then westwardly parallel to King street 10 feet; then westwardly parallel to King street 10 feet; then a straight line to the line of the ground, and the residue of the piece of ground before described, and running thence eastwardly with King street 36 feet 9 inches, more or less, to the line of the ground, and then northwardly parallel to King street 10 feet; then northwardly parallel to King street 10 feet; then westwardly parallel to King street 10 feet; then westwardly parallel to King street 10 feet; then a straight line to the line of the ground, and the residue of the piece of ground before described, and running thence eastwardly with King street 36 feet 9 inches, more or less, to the line of the ground, and then northwardly parallel to King street 10 feet; then northwardly parallel to King street 10 feet; then westwardly parallel to King street 10 feet; then westwardly parallel to King street 10 feet; then a straight line to the line of the ground, and the residue of the piece of ground before described, and running thence eastwardly with King street 36 feet 9 inches, more or less, to the line of the ground, and then northwardly parallel to King street 10 feet; then northwardly parallel to King street 10 feet; then westwardly parallel to King street 10 feet; then westwardly parallel to King street 10 feet; then a straight line to the line of the ground, and the residue of the piece of ground before described, and running thence eastwardly with King street 36 feet 9 inches, more or less, to the line of the ground, and then northwardly parallel to King street 10 feet; then northwardly parallel to King street 10 feet; then westwardly parallel to King street 10 feet; then westwardly parallel to King street 10 feet; then a straight line to the line of the ground, and the residue of the piece of ground before described, and running thence eastwardly with King street 36 feet 9 inches, more or less, to the line of the ground, and then northwardly parallel to King street 10 feet; then northwardly parallel to King street 10 feet; then westwardly parallel to King street 10 feet; then westwardly parallel to King street 10 feet; then a straight line to the line of the ground, and the residue of the piece of ground before described, and running thence eastwardly with King street 36 feet 9 inches, more or less, to the line of the ground, and then northwardly parallel to King street 10 feet; then northwardly parallel to King street 10 feet; then westwardly parallel to King street 10 feet; then westwardly parallel to King street 10 feet; then a straight line to the line of the ground, and the residue of the piece of ground before described, and running thence eastwardly with King street 36 feet 9 inches, more or less, to the line of the ground, and then northwardly parallel to King street 10 feet; then northwardly parallel to King street 10 feet; then westwardly parallel to King street 10 feet; then westwardly parallel to King street 10 feet; then a straight line to the line of the ground, and the residue of the piece of ground before described, and running thence eastwardly with King street 36 feet 9 inches, more or less, to the line of the ground, and then northwardly parallel to King street 10 feet; then northwardly parallel to King street 10 feet; then westwardly parallel to King street 10 feet; then westwardly parallel to King street 10 feet; then a straight line to the line of the ground, and the residue of the piece of ground before described, and running thence eastwardly with King street 36 feet 9 inches, more or less, to the line of the ground, and then northwardly parallel to King street 10 feet; then northwardly parallel to King street 10 feet; then westwardly parallel to King street 10 feet; then westwardly parallel to King street 10 feet; then a straight line to the line of the ground, and the residue of the piece of ground before described, and running thence eastwardly with King street 36 feet 9 inches, more or less, to the line of the ground, and then northwardly parallel to King street 10 feet; then northwardly parallel to King street 10 feet; then westwardly parallel to King street 10 feet; then westwardly parallel to King street 10 feet; then a straight line to the line of the ground, and the residue of the piece of ground before described, and running thence eastwardly with King street 36 feet 9 inches, more or less, to the line of the ground, and then northwardly parallel to King street 10 feet; then northwardly parallel to King street 10 feet; then westwardly parallel to King street 10 feet; then westwardly parallel to King street 10 feet; then a straight line to the line of the ground, and the residue of the piece of ground before described, and running thence eastwardly with King street 36 feet 9 inches, more or less, to the line of the ground, and then northwardly parallel to King street 10 feet; then northwardly parallel to King street 10 feet; then westwardly parallel to King street 10 feet; then westwardly parallel to King street 10 feet; then a straight line to the line of the ground, and the residue of the piece of ground before described, and running thence eastwardly with King street 36 feet 9 inches, more or less, to the line of the ground, and then northwardly parallel to King street 10 feet; then northwardly parallel to King street 10 feet; then westwardly parallel to King street 10 feet; then westwardly parallel to King street 10 feet; then a straight line to the line of the ground, and the residue of the piece of ground before described, and running thence eastwardly with King street 36 feet 9 inches, more or less, to the line of the ground, and then northwardly parallel to King street 10 feet; then northwardly parallel to King street 10 feet; then westwardly parallel to King street 10 feet; then westwardly parallel to King street 10 feet; then a straight line to the line of the ground, and the residue of the piece of ground before described, and running thence eastwardly with King street 36 feet 9 inches, more or less, to the line of the ground, and then northwardly parallel to King street 10 feet; then northwardly parallel to King street 10 feet; then westwardly parallel to King street 10 feet; then westwardly parallel to King street 10 feet; then a straight line to the line of the ground, and the residue of the piece of ground before described, and running thence eastwardly with King street 36 feet 9 inches, more or less, to the line of the ground, and then northwardly parallel to King street 10 feet; then northwardly parallel to King street 10 feet; then westwardly parallel to King street 10 feet; then westwardly parallel to King street 10 feet; then a straight line to the line of the ground, and the residue of the piece of ground before described, and running thence eastwardly with King street 36 feet 9 inches, more or less, to the line of the ground, and then northwardly parallel to King street 10 feet; then northwardly parallel to King street 10 feet; then westwardly parallel to King street 10 feet; then westwardly parallel to King street 10 feet; then a straight line to the line of the ground, and the residue of the piece of ground before described, and running thence eastwardly with King street 36 feet 9 inches, more or less, to the line of the ground, and then northwardly parallel to King street 10 feet; then northwardly parallel to King street 10 feet; then westwardly parallel to King street 10 feet; then westwardly parallel to King street 10 feet; then a straight line to the line of the ground, and the residue of the piece of ground before described, and running thence eastwardly with King street 36 feet 9 inches, more or less, to the line of the ground, and then northwardly parallel to King street 10 feet; then northwardly parallel to King street 10 feet; then westwardly parallel to King street 10 feet; then westwardly parallel to King street 10 feet; then a straight line to the line of the ground, and the residue of the piece of ground before described, and running thence eastwardly with King street 36 feet 9 inches, more or less, to the line of the ground, and then northwardly parallel to King street 10 feet; then northwardly parallel to King street 10 feet; then westwardly parallel to King street 10 feet; then westwardly parallel to King street 10 feet; then a straight line to the line of the ground, and the residue of the piece of ground before described, and running thence eastwardly with King street 36 feet 9 inches, more or less, to the line of the ground, and then northwardly parallel to King street 10 feet; then northwardly parallel to King street 10 feet; then westwardly parallel to King street 10 feet; then westwardly parallel to King street 10 feet; then a straight line to the line of the ground, and the residue of the piece of ground before described, and running thence eastwardly with King street 36 feet 9 inches, more or less, to the line of the ground, and then northwardly parallel to King street 10 feet; then northwardly parallel to King street 10 feet; then westwardly parallel to King street 10 feet; then westwardly parallel to King street 10 feet; then a straight line to the line of the ground, and the residue of the piece of ground before described, and running thence eastwardly with King street 36 feet 9 inches, more or less, to the line of the ground, and then northwardly parallel to King street 10 feet; then northwardly parallel to King street 10 feet; then westwardly parallel to King street 10 feet; then westwardly parallel to King street 10 feet; then a straight line to the line of the ground, and the residue of the piece of ground before described, and running thence eastwardly with King street 36 feet 9 inches, more or less, to the line of the ground, and then northwardly parallel to King street 10 feet; then northwardly parallel to King street 10 feet; then westwardly parallel to King street 10 feet; then westwardly parallel to King street 10 feet; then a straight line to the line of the ground, and the residue of the piece of ground before described, and running thence eastwardly with King street 36 feet 9 inches, more or less, to the line of the ground, and then northwardly parallel to King street 10 feet; then northwardly parallel to King street 10 feet; then westwardly parallel to King street 10 feet; then westwardly parallel to King street 10 feet; then a straight line to the line of the ground, and the residue of the piece of ground before described, and running thence eastwardly with King street 36 feet 9 inches, more or less, to the line of the ground, and then northwardly parallel to King street 10 feet; then northwardly parallel to King street 10 feet; then westwardly parallel to King street 10 feet; then westwardly parallel to King street 10 feet; then a straight line to the line of the ground, and the residue of the piece of ground before described, and running thence eastwardly with King street 36 feet 9 inches, more or less, to the line of the ground, and then northwardly parallel to King street 10 feet;
